Summary

Frontend Developer seeking a challenging role where I can leverage my skills to build innovative web applications. With 1+ year of experience in developing and deploying applications using NextJS. I am proficient in Tailwind CSS, JavaScript, TypeScript, Redux, Material UI, and Responsive Design. My expertise includes integrating web applications with Contentful CMS, REST API, and Slack APIs, as well as automating deployments via GitHub Actions.

Skills

Next.js, ReactJS, Redux, JavaScript, Node.js, HTML, CSS, Tailwindcss, Git, GitHub, Vscode

Experience

Frontend Developer

Cereble • Pune, Maharashtra
01/2024 - 02/2025

- Created a fully responsive website from scratch using Next.js and Foundation Framework, accurately implementing designs from Figma to ensure seamless user experience.
- Integrated Slack API to automate form submissions and notifications, enhancing workflow efficiency and reducing manual intervention.
- Utilized Swiper.js for dynamic content presentation and Material UI to enhance the overall user interface, providing a visually appealing and interactive experience.
- Designed and built interactive contact, feedback, and booking forms to boost user engagement and interaction with the website.
- Ensured that the website was fully compatible across various devices, maintaining responsiveness and optimal performance on different screen sizes and platforms.
- Implemented Formik and Yup to streamline form validation processes, ensuring accurate and efficient data collection while enhancing user experience.
- Integrated web applications with Contentful CMS and REST API, facilitating seamless content management and data exchange.

Personal Projects

Resume Builder Application – https://resume-builder-xi-ebon.vercel.app

- Utilized Contentful as the CMS to empower users to effortlessly store and manage their data, ensuring flexibility and ease of use.
- Implemented Clerk for robust authentication, prioritizing user data security and privacy.
- Leveraged Tailwind CSS to create a visually appealing and responsive user interface, enhancing user engagement and satisfaction.
- Integrated AI-powered content generation capabilities to assist users in crafting compelling and impactful resume content.
- Employed the useContext hook for efficient state management, ensuring a smooth and performant user experience.
- Enabled users to download their resumes in PDF format, providing a professional and easily shareable output.
- Deployed the application on Vercel, ensuring scalability, reliability, and optimal performance.

Portfolio Website – https://www.shrutishende.in

- Designed and developed a portfolio website utilizing the Next.js framework.
- Implemented nodemailer functionality to enable seamless mail sending upon form submission.
- Integrated Tailwind CSS and Material UI to create a visually appealing and user-friendly frontend.

- Implemented SEO (Search Engine Optimization) techniques to enhance the website's visibility and improve its ranking on search engines.

Education

Bachelor Of Engineering

Bapurao Deshmukh College Of Engineering • wardha, Maharashta
06/2017
